For Pharmacists and Nurses - Also available online at www.ProCE.com

Safe IV Administration with State-of-the-Art Technology

This educational activity will describe the implementation of intelligent infusion technology at a 107-bed hospital specializing in cardiac care. The importance of creating a safe environment for IV administration, and the use of data collected with intelligent infusion technology to improve bedside IV delivery, will also be discussed.

Faculty

Jacqueline L. Estok, MBA, MSN, RN, HFA
Chief Nursing Officer
Vice President, Patient Care Services
St. Vincent Heart Center of Indiana
Indianapolis, Indiana

Learning Objectives

After completing this activity, the participant will be able to:

- Outline strategies for effective implementation of intelligent infusion technology
- Describe the development, bedside application and importance of an intelligent infusion drug library
- Describe evidenced-based practice regarding compliance with safe IV drug administration
- Outline the role of the bedside clinician in prevention of medication errors.

Accreditation

Pharmacists: ProCE, Inc. is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. ACPE Universal Activity Number 221-000-09-057-H04-P has been assigned to this knowledge-based home-study activity. This activity is acceptable for 1.0 contact hour (0.1 CEU) in states that recognize ACPE providers. It is provided at no cost to participants. Statements of credit will be issued online at www.ProCE.com upon successful completion of the post-test (≥70% correct). No partial credit will be given.

Nurses: Nurse CE is provided for this activity through collaboration between ProCE, Inc. and Wild Iris Medical Education, Inc. Wild Iris Medical Education, Inc. is accredited as a provider of continuing education by the American Nurses Credentialing Center's Commission on Accreditation. This activity provides 1.0 contact hour of nurse CE credit.
